

Up to 50% Savings

Qualified households can save up to 50%

No Cost to Join

No enrollment or subscription fees. Unsubscribe at any time if needed

Renters are Welcome

Open to both renters and homeowners. No installation required

Who qualifies for ILSFA?

This program is specifically for income-eligible residents. To qualify, the household must verify as 80% or less of the Area Median Income (AMI). The AMI varies by household size and geography.

What is the subscriber savings discount?

Subscribers will receive up to 50% off of the supply portion of their electric bill.

The supply portion of an electric bill is typically half of the total electric bill. This results in an estimated 25% savings on your total electric bill.

NEED TO LOWER YOUR ELECTRICITY BILL?

Save Up To 50% With Community Solar

Income-qualified households can save up to 50% on the supply portion of their energy bill through the Illinois Solar for All community solar program.

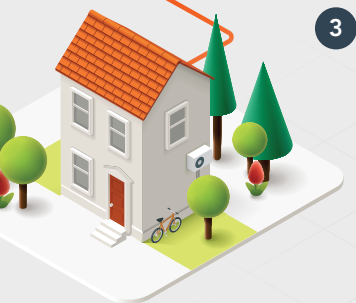

How Community Solar Works

1 A solar farm gets built near you. Renters and homeowners can subscribe to a portion of the farm that matches their energy usage.

2 When you join, your solar share sends its energy through your utility's power grid, so there's no need to install anything on your home or pay upfront fees.

3 You will receive your electricity as normal, no change to your everyday life, except for the savings you get and the good feelings of supporting clean energy.

What You'll See on Your Electric Bill

You will continue to receive your regular electric bill each month, with solar credits applied. You will then receive an invoice from Solstice charging you for your credits at your project's discount rate. This offer is not affiliated with a utility provider. Please note that you will still be responsible for a utility bill.
